Greetings Governor Cox and Lt. Governor Henderson

We wish to take this opportunity to introduce ourselves as The Utah Assembly; men and women standing as "We the People" of the original Land and soil Jurisdiction on Utah. We uphold and administer the unincorporated State of the Union (1776); one of fifty (50) nation states comprising The Federation of States (The United States of America, unincorporated). We are the Lawful Self-Governing Body on Utah which arises from an assembly of the General Public. The Utah Assembly holds superior concurrent General Jurisdiction.

Let it be known that this Introduction, Notice of Crime and Trespass expresses the unanimous Will of The Utah Assembly, standing as and for the people on Utah. All facts stated herein are true to the best of our knowledge and comprehension.

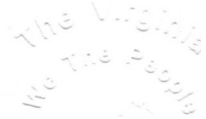

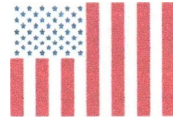

We live by the clear and simple precepts of: Do No Harm, Be in Honor, Act in Kindness and Leave Life Better. We hold our responsibility to nourish and restore the Land, Air and Water on Utah to be of primary importance. We affirm that we have declared Peace, will Keep the Peace and uphold the Public Law for the people on Utah (see Federal Record <https://tasa.americanstatenationals.org/federal-record/>). We extend our Honor and our hands in friendship and Peace.

You may not recognize the unusual looking flag illustrated below. That is America's Civil Flag of Peace which was shelved and hidden from us along with the rest of our true American History and Inheritance. America's Civil Flag of Peace is the symbol of our Peaceful and Lawful intentions for beginning this communication.

Current global events and hidden agendas are culminating in great harm and injury on Utah and therefore we require that you thoroughly review the following attached documents, articles, and the entire message herein so you will be properly noticed moving forward.

#### Notice:

#### American Common Law Courts of superior General Jurisdiction

We are pleased to inform you that we have the Provenance, standing and status to provide proper American Common Law Courts of superior General Jurisdiction on Utah and we will determine any issue or claim that presents actual or potential harm or trespass against the people on Utah. We consider the facts of any individual case and the Law itself. We hold the power to nullify foreign "law" implemented on our Land and soil and any law that is unjust, unlawful and/or harmful to our true nature as the living people.

---

Utah is an American, republican nation-state as declared in our Unanimous Declaration of Independence on July 4<sup>th</sup> of 1776; The Lawful Governance structure on Utah is not a Democracy, we do not have political parties, and we are not a Commonwealth under British or Roman rule. We "the people" hold individual and national Sovereignty and we administer and oversee all aspects of our lives, estates and State from our provenance and standing on the Land and soil. Any "Commonwealth", sea jurisdiction overlay that you may propose to govern, is not the factual Land and soil jurisdiction where the peaceful people/People live and Self-govern.

We acknowledge and act upon our responsibility to ensure and require that those holding a British Title of Nobility or Honor, Office or employment for any Federal Service contractor, their subsidiaries or any agencies arising from those organizations, act in accordance with the three (3) Federal service contracts called Constitutions (The Constitution for the united States of America -1787, The Constitution of the United States of America -1789, The Constitution of the United States -1790), the Utah Constitution and the Public Law. All must uphold the Constitutional Protections, the Natural and Unalienable Rights of the people on the Land and Soil on Utah and administer their delegated Duties and responsibilities from a place of Honor and Integrity.

Our country, our nation-states and our people are amidst a state of severe distress, harm and trespass purposefully inflicted by criminal, corporate, governmental service providers

impersonating Lawful governments. We are living under corporatocracy, and technocracy commingled with the Military Industrial Complex and an ancient lineage of Eugenacists with long term plans. These plans are implemented by the globalist "elite" and other unelected, international, corporate employees, agencies, and entities.

Silence and acquiescence are no longer tolerable as the facts and evidence of harm are indisputable. These foreign (incorporated) "governments" are using extreme force against the people through deployment of optical, sound, frequency, pharmaceutical, plasma, scalar, molecular, weather, drone and AI driven, dual use, bi-directional energy weapon systems. Great harm is also inflicted through the actions of the misguided and misinformed employees of the incorporated "governments" (i.e. Law Enforcement, Medical Industrial Complex, and Military) and weaponized Maritime and Admiralty Court systems where our Names/NAMES are used by those acting as public Usufructs in Breach of Trust, under Color of Law and false presumptions of war.

We require Due Diligence and provide this information as Notice to you of the breadth of our comprehension of facts. It is your Public Duty to review all information herein. In addition to three (3) physical copies, you will receive a digital copy of this message and all attachments. This will facilitate distribution to Principals, Agents, corporate Officers, and Employees, all of whom would benefit from access to this Notice and clarifying information.

#### Notice:

##### Public Notice of Harm — Cease and Desist

We have researched history, we have heard their words, we have read their plans, we now bear witness to the intended devastation, and we do not consent. "We the people" stand united and we irrefutably and unequivocally denounce, deny, and forbid perpetuation of the lies and criminal action that underlies this momentum of harm and trespass against the people and our ability to live peaceful, healthy, and meaningful lives. The attached Notice of Harm — Cease and Desist and Public Notice of Harm 2023 — 2024 - "Exhibit A" enumerates and substantiates a multitude of issues that require immediate attention and remediation.

Utah stands in Peace and the people on Utah will not be forced to succumb to tyranny under the dictates of incorporated governmental service providers acting in fictional and deceptive capacities. Our Federation of States has completed proper Due Process in all Jurisdictions (LAW) and any further usurpation beyond this notification is in clear betrayal of the people on Utah and our Country. We require you to administer your Office in favor of the people on Utah and not for your incorporated employers who are acting in open treason against the people of the American nation-states.

---

We realize that due to hierarchy and compartmentalization of information and employment, you may not be fully apprised of what is True; however, we consider this to be an additional Notice. Last Spring of 2023, you received and contractually accepted a "Notice and

Declaration Regarding Unlawful Exercise of Right of Dstraint and Levy and acts of Personage, Peonage, Slavery, and Treason" from The Utah Assembly, sent to you in triplicate as confirmed by the following tracking information (Youngkin - Registered mail RE \_\_\_\_\_ US, Priority mail \_\_\_\_\_, Certified mail \_\_\_\_\_, and Registered mail RE \_\_\_\_\_ US, Priority mail \_\_\_\_\_, Certified mail \_\_\_\_\_), and you were, and are, fully apprised of these unlawful crimes and trespasses. We recognize the proper delegation of powers in the factual American Governmental structure on Utah and to assure your understanding, we are providing additional supporting evidence as attachments that will clarify these facts.

Be it known that we are aware, and we are in direct observation of the steps you choose on behalf of, or in harm to, the people on Utah. It is time for full disclosure of the true nature of the circumstances we find ourselves in. We demand immediate course correction, and we must clean up our own backyard. Unfathomable harm and trespass is occurring on our state and to our people. We will no longer tolerate the continued implementation of the destructive plans of the unelected bureaucrats deploying theater, propaganda, secrecy, and criminality under the guise of "national security" and "secret projects".

We, the living people on Utah arrive in the present moment with a resounding We Do Not Consent!! Let there be no question or doubt. There is no one acting within these fictional, incorporated capacities that has authority over, nor even the right to address, the men, women, sons, and daughters who have declared their political status as Living souls born on the Land and soil of our nation-states. We are the men and women on Utah who acknowledge, embody and wield our provenance and standing as properly declared American state nationals. We are not under your limited jurisdiction or positional authority; however, we do not stand "against" you.

It is our belief that many transgressions and actions taken under duress may be forgiven when acknowledged in full disclosure, honesty, and remorse. The people require education, protection, cessation of, and relief from the assault on our physical, mental, emotional, and individual energetic expression.

When one undertakes Due Diligence and engages with evidence of harm, the facts cannot be avoided. It is the responsibility of each man or woman in positions of perceived "authority" or otherwise, who comes upon what is true, to inform and notify those that remain unaware and may be reached through notification by their Office and influence.

We ask that you contact The Utah Assembly to schedule a meeting, within fourteen (14) days after receipt of this missive. If this communication is not forthcoming, we will proceed with further action as may be necessary to include a Notice of Liability against both your Corporate Office and you as a man or woman in your private capacity. We do acknowledge that you have taken some positive action in your capacity as Governor of the Utah Commonwealth, and we look forward to assisting you in strengthening your resolve to continue in this direction with greater clarity and focus and with the correct comprehension of your delegated authority.
